ME 496 or NUC E 496 PROJECT REGISTRATION FORM

Student Instructions: A student may not register for ME/NUC E 496 unless he/she has obtained prior permission from a member of the ME or NUC E faculty who will serve as the student’s project supervisor. After obtaining this permission, the student will fill out the statements below and obtain their advisor’s signature as well as the signature of the faculty member supervising their research. The approved form must be turned in at the Undergraduate Programs Office in Room 139/140 Reber Building. After doing this, the student may register for the appropriate section of ME/NUC E 496.

NOTE: ME 496 is used as an Engineering Technical Elective (ETE) or General Technical Elective (GTE) not an ME Technical Elective (METE). NUC E 496 is used as a GTE, not a NUC E Technical Elective (NETE).

Faculty Instructions: ME/NUC E 496 can only be supervised by MNE faculty with at least the rank of Assistant Professor. Faculty supervisors should carefully review the qualifications of each student to make sure he/she meets the current MNE requirements for taking ME/NUC E 496. Faculty unsure of the requirements may check with the Professor in Charge of the Undergraduate Programs in Mechanical and Nuclear Engineering Department, in Room 140B Reber Building.

Student Name ___________________________________ Student ID # ____________________ GPA __________

Local Address _____________________________________________________________________________

Local Telephone #_________________________________________ Email address _____________________
